Construction Alert

May 2011

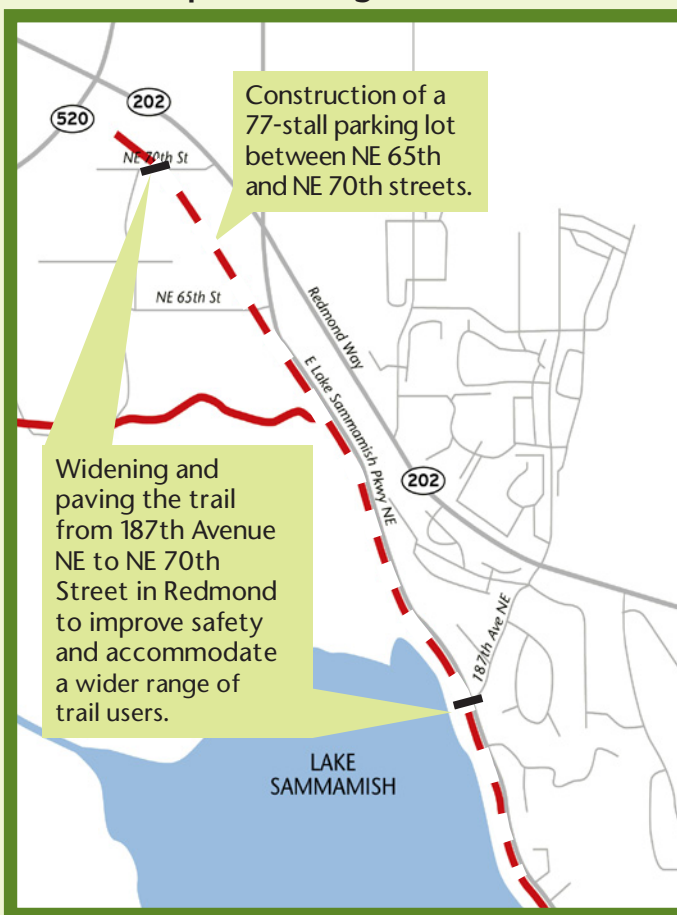

Redmond Segment of the East Lake Sammamish Trail to close for 6 months

To improve safety and accommodate a wider range of users, King County will begin widening and paving the Redmond Segment of the East Lake Sammamish Trail on May 16th. To ensure public safety, the 1.2-mile gravel trail from Northeast 70th Street to 187th Avenue Northeast will close during construction and is expected to re-open in November. The Redmond Segment is the first phase of the multi-year development of the East Lake Sammamish Master Planned Trail.

We appreciate your patience during construction!

Visit www.kingcounty.gov/parks for information about alternative routes and to view a listing of the many other trail and park amenities available for your recreational enjoyment.

What to expect during construction

How is this project funded?

Funding for the Redmond Segment of the East Lake Sammamish Trail is provided by the voter-approved 2008-2013 Proposition 2 Parks Expansion Levy. Thank you for your support!

What's next?

The 11-mile trail will be designed and constructed in segments as funding becomes available. Construction of Phase II, the Issaquah Segment from Gilman Boulevard to the vicinity of Southeast 43rd Way, will begin in late 2011.

Design of Phase III, the North Sammamish Segment, will begin this summer and construction is anticipated for late 2012, pending budget availability.
